- Gender norms activities
- Parenting/ caregivers programs
- Active linkages to Medical Circumcision, Counseling and Testing and adolescent friendly health services.
- Linkages to Care and Treatment services
- Male engagement activites

DREAMS Programmatic Shifts for COP18

Challenge	Solution
Lack of standardization in school-based activities	•4 IPs were working in schools across 5 districts •IP consolidation: one IP will conduct school-based activities in all DREAMS districts
Some IPs unable to adopt layering tool	•Layering tool protocol approved and implementation in process for all partners at the end of FY18. •Close monitoring of coordination of services in order to reduce the lack of information about layering from partners.
DREAMS shifted to the 9-24 age band	•Preventing Sexual Violence and Preventing HIV trough avoiding Sexual Risk curricula
Geography for DREAMS	•Clinical partner shift in Zambezia province, Friends in Global Health (FGH) will take over ICAP. •Expansion of DREAMS package to Maputo Province: • Namaacha • Matutuine

DREAMS Best Practices to Expand in COP18

DREAMS
WORKING TOGETHER FOR AN A.I.D.S-FREE FUTURE FOR GIRLS & WOMEN

Recruitment

- Update Girl Roster semi-annually to identify mobile AGYW
- Strengthen linkage between Key Populations and DREAMS programs

Programming

- Expand access to vocational training for out-of-school 15-24
- Preventing HIV trough avoiding sexual risk and delay of sexual debut for adolescents
- DREAMS Ambassadors draw attention to challenges faced by AGYW

Monitoring

- Ensure all IPs consistently use the layering tool by the end of FY18
- Focus group sessions with DREAMS beneficiaries for continuous feedback

What are our partners doing in Gaza Province- Chokwe- Xai Xai- Limpopo- Chongoene

DREAMS
WORKING TOGETHER FOR AN AIDS-FREE FUTURE FOR GIRLS & WOMEN

EGPAF

- Adolescent health friendly services
- HTS
- Contraceptive method mix and condom promotion
- Adolescent health corners
- Post violence care
- Linking men to HTS, VMMC, care and treatment

JHPiego

- Post violence care
- Layering tool
- Sessions for Gender based violence reduction for males

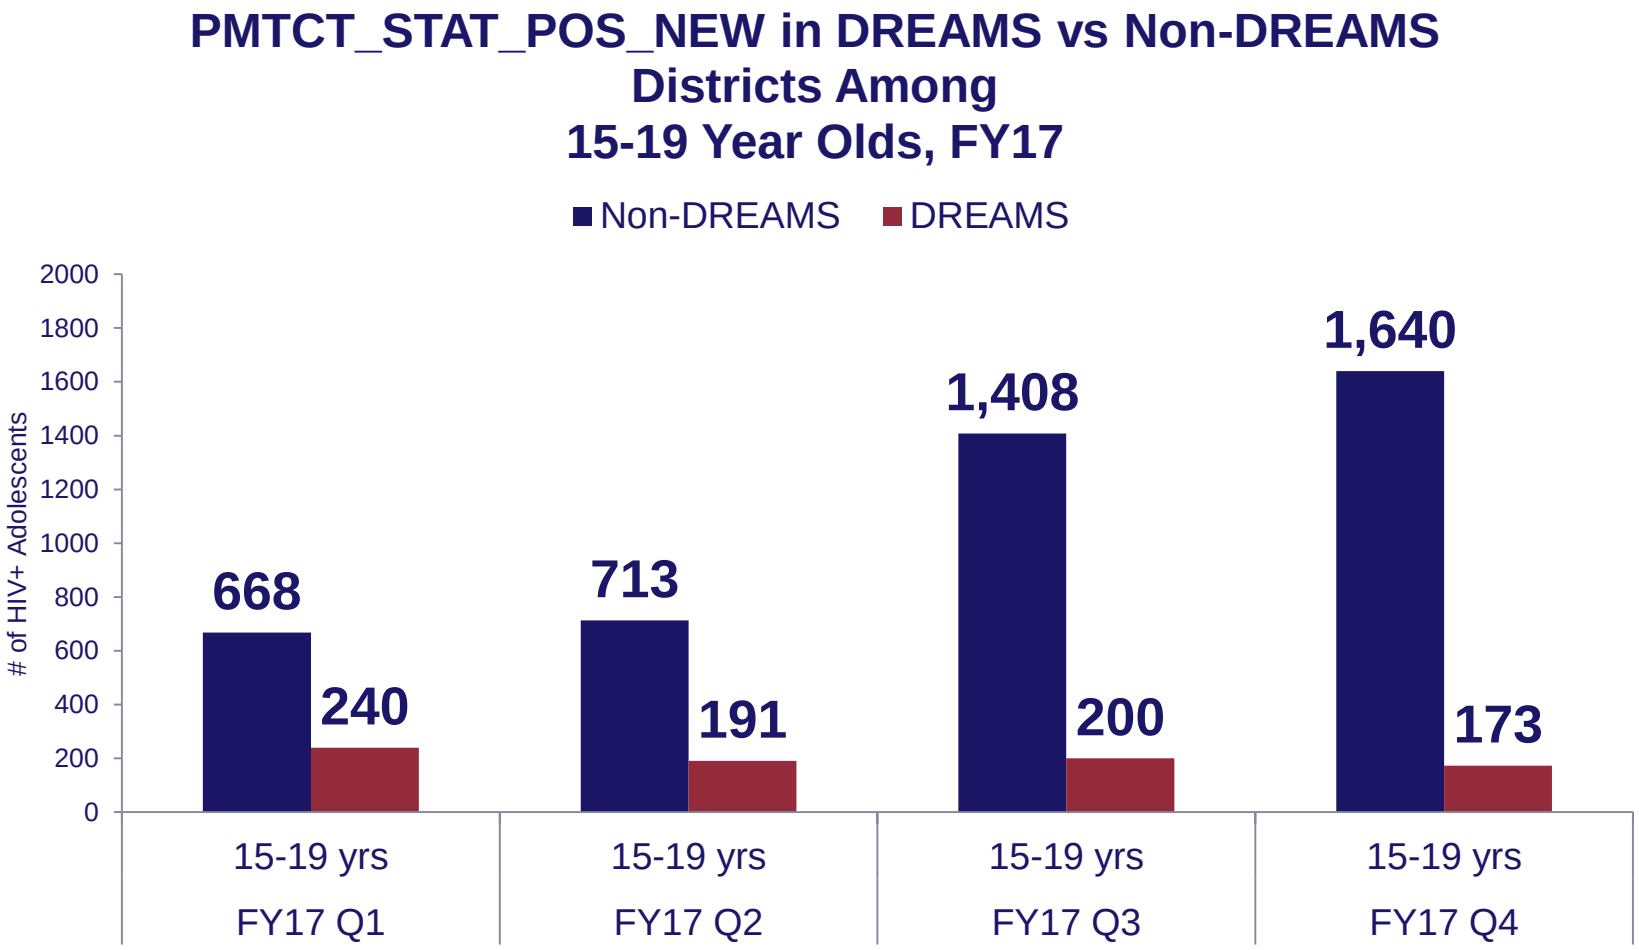
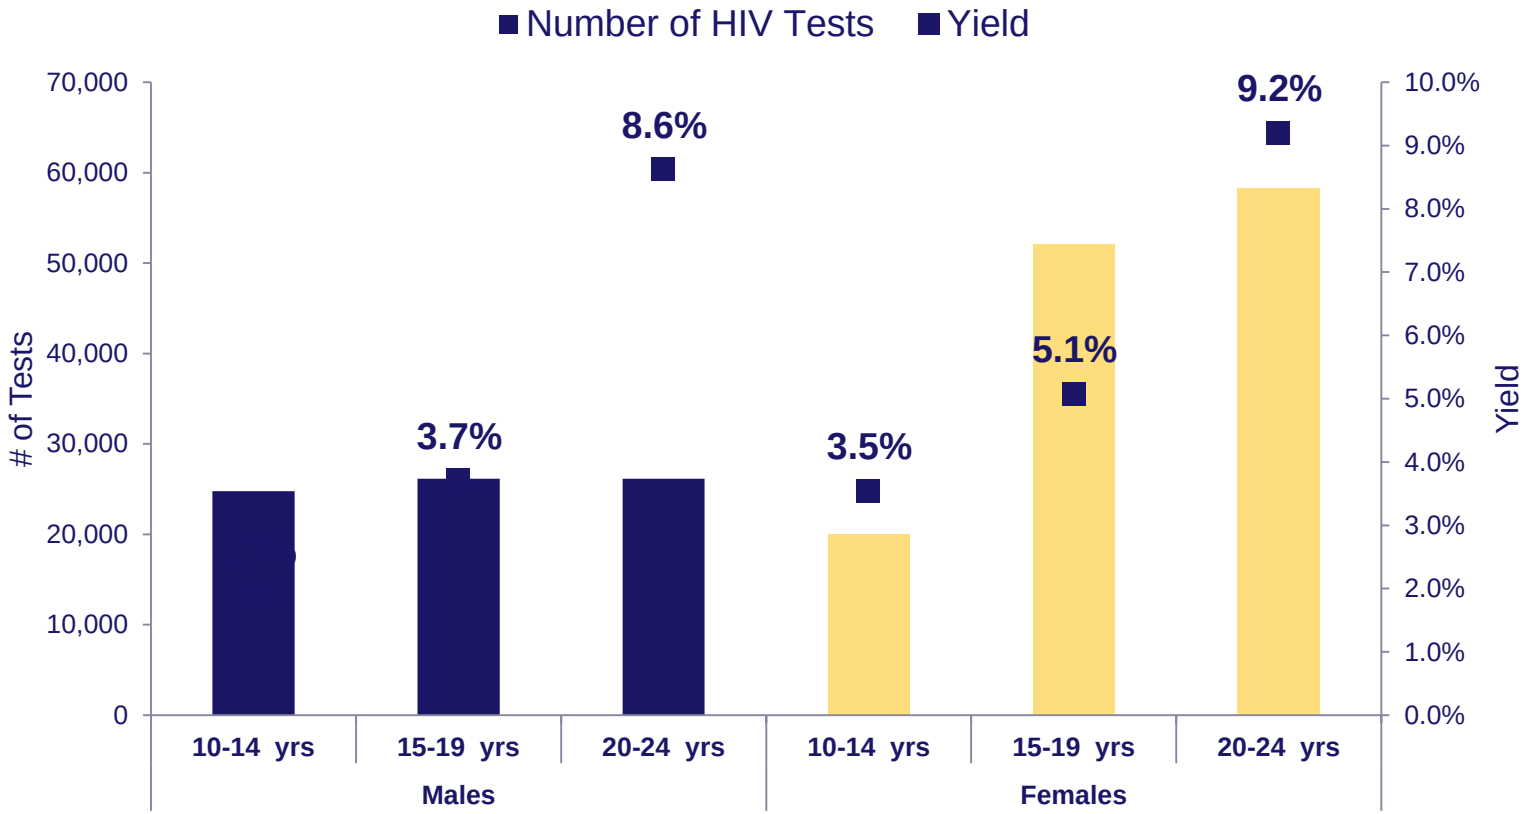
Through FY17, # of New Diagnoses at 1st ANC for 15-19 Year Olds Dropped in DREAMS Districts



15 – 24 is a Time of Extreme Vulnerability for HIV Acquisition among AGYW

Number of HIV Tests and Yield by Sex and Age in DREAMS Districts, FY17 Q1 - FY18 Q1

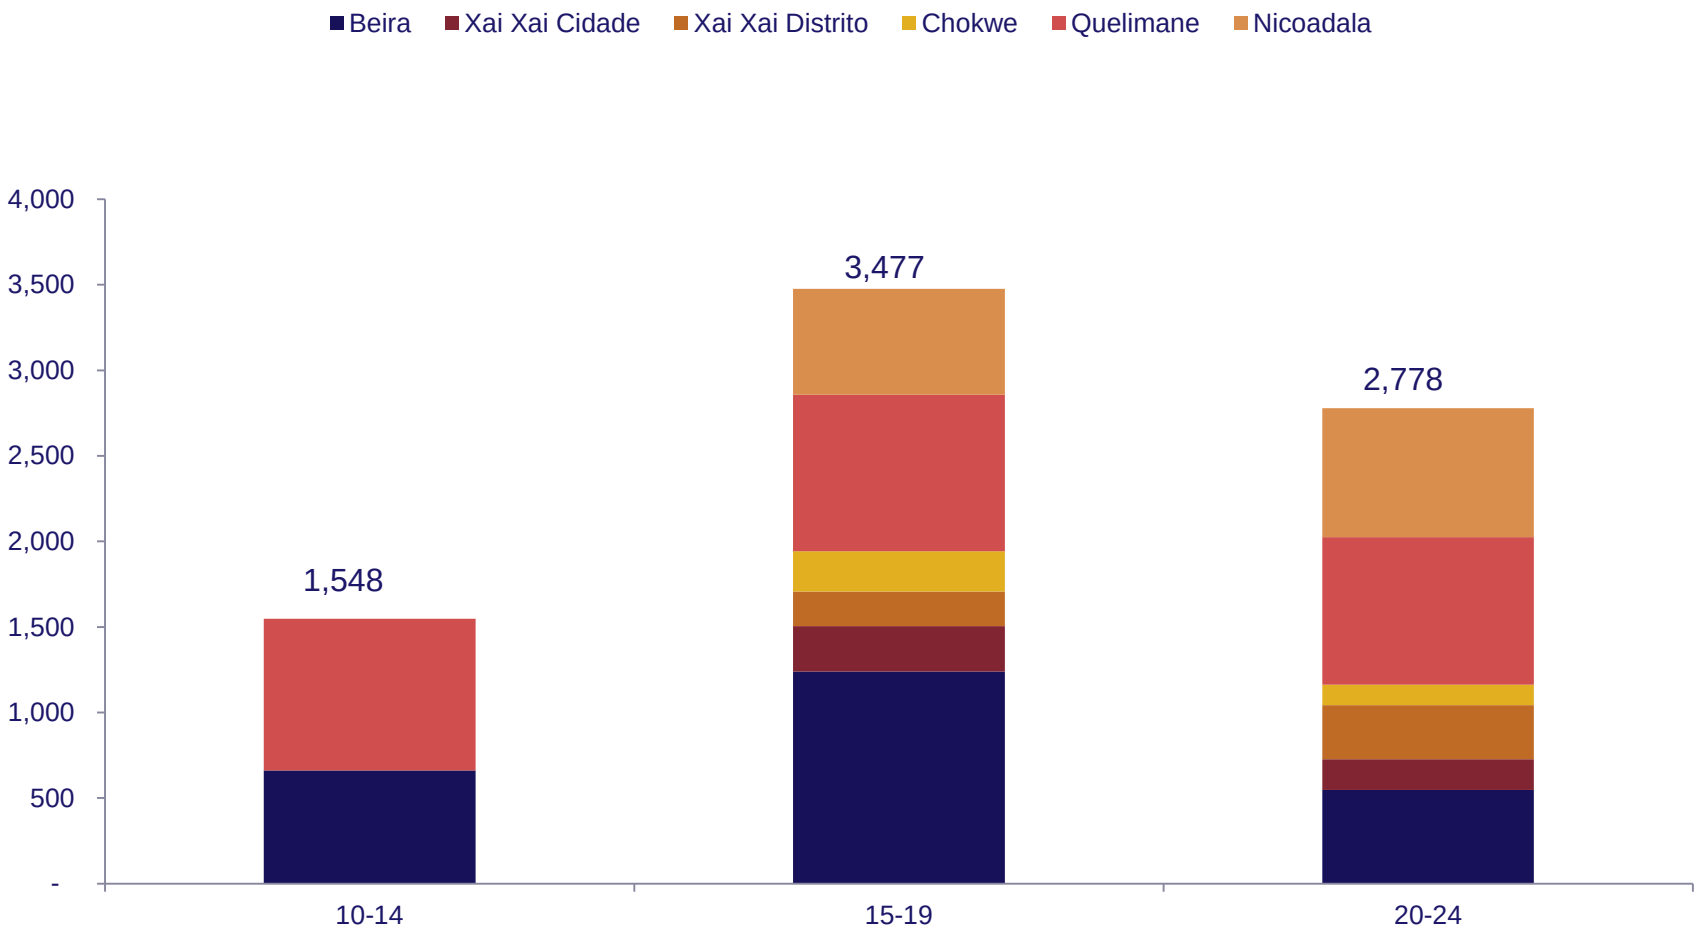


High increase for10 -14 OVCs served by DREAMS districts in Q2

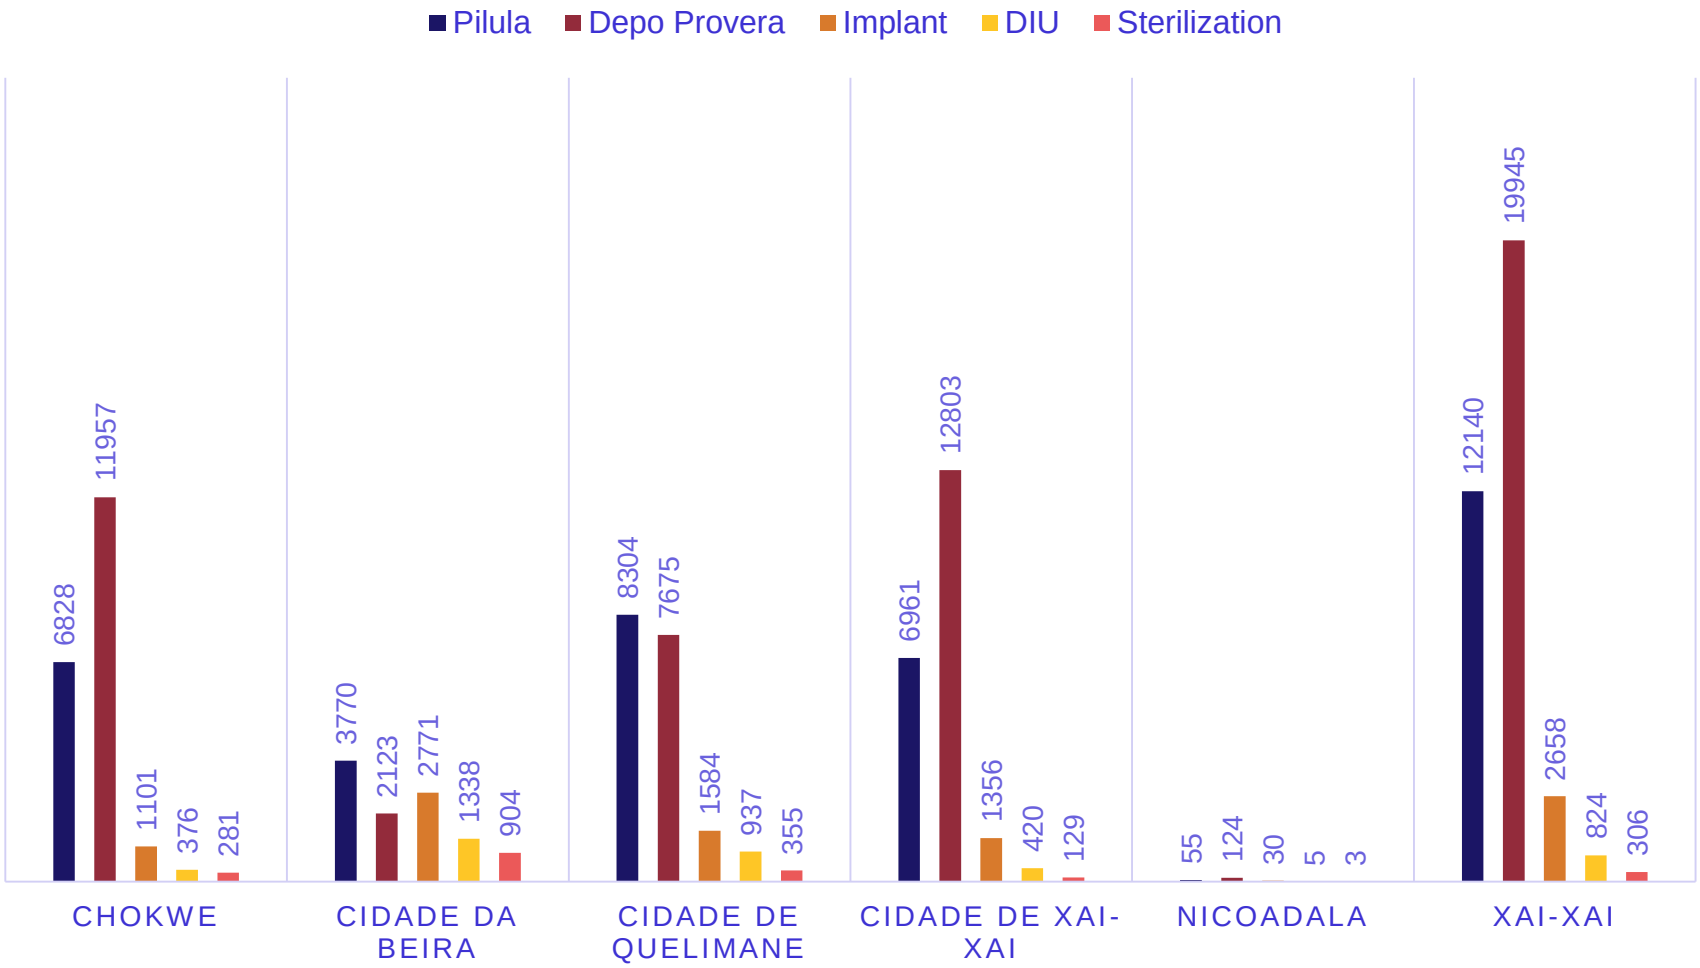
	Chokwe	Xai-Xai	Limpopo	Beira	Nicoadala	Quelimane
10-14	3,336	2,574	2,457	5,251	7,168	7,115
15-17	2,560	1,865	1,174	5,249	3,300	4,619
18-24	2,043	1,284	482	5,464	647	197

■ 10-14 ■ 15-17 ■ 18-24

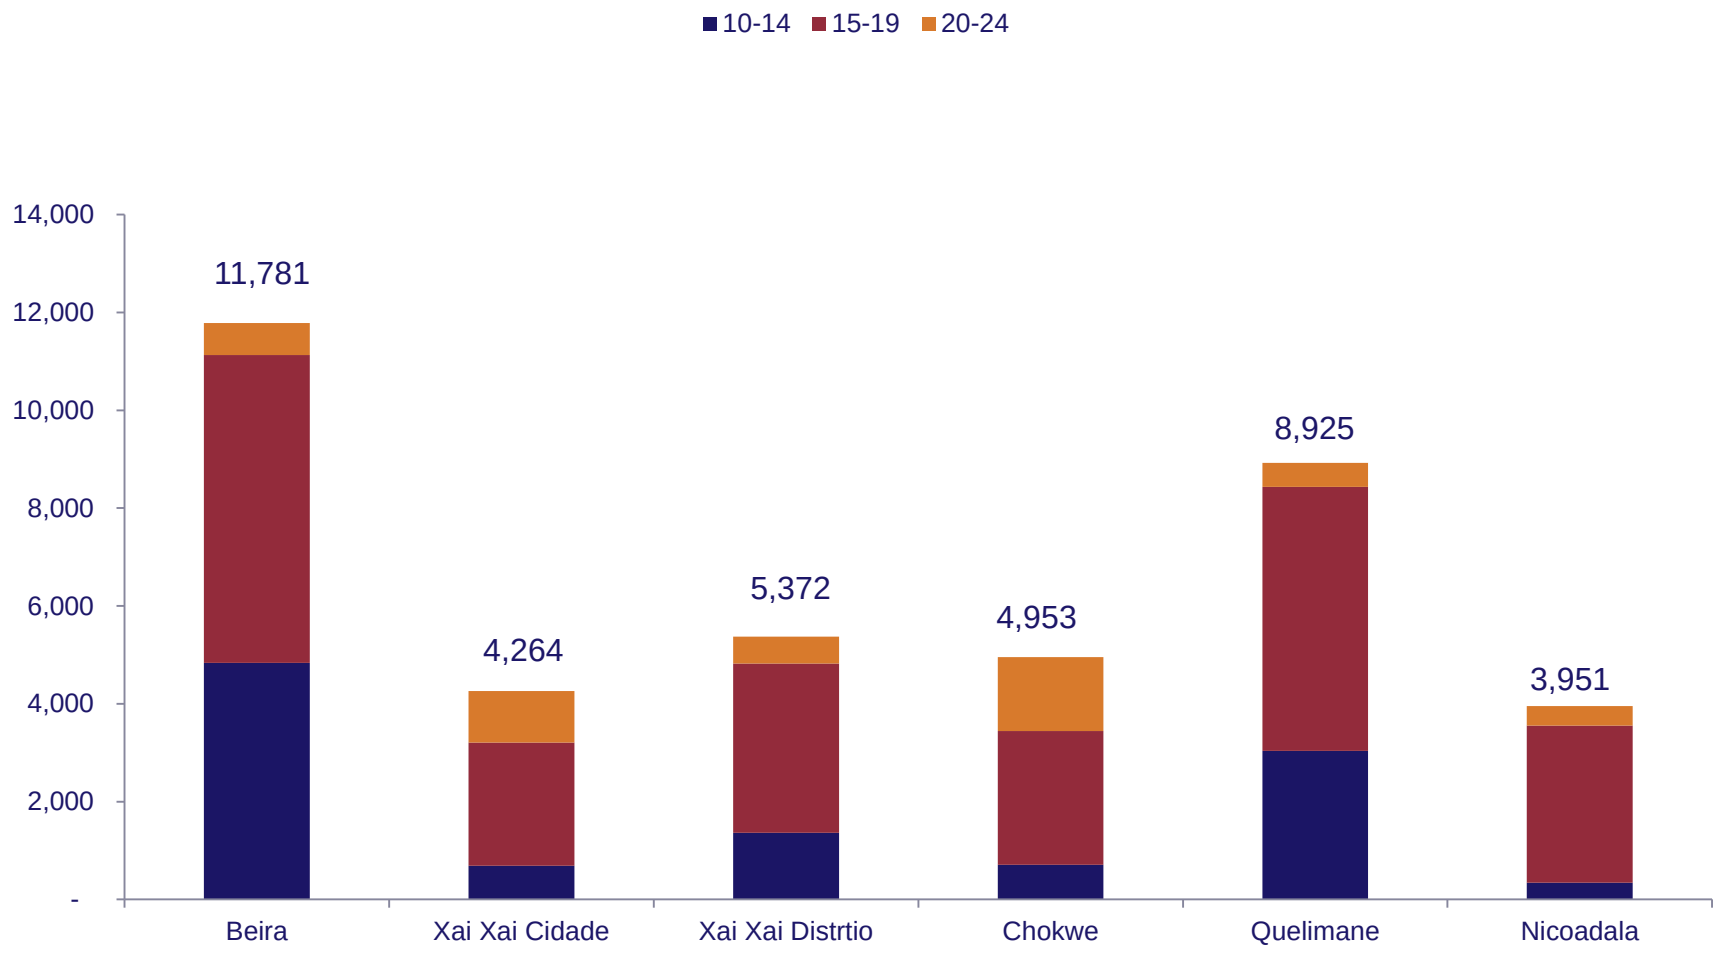
AGYW GEND_NORM Participants in DREAMS Districts SAPR1 FY18



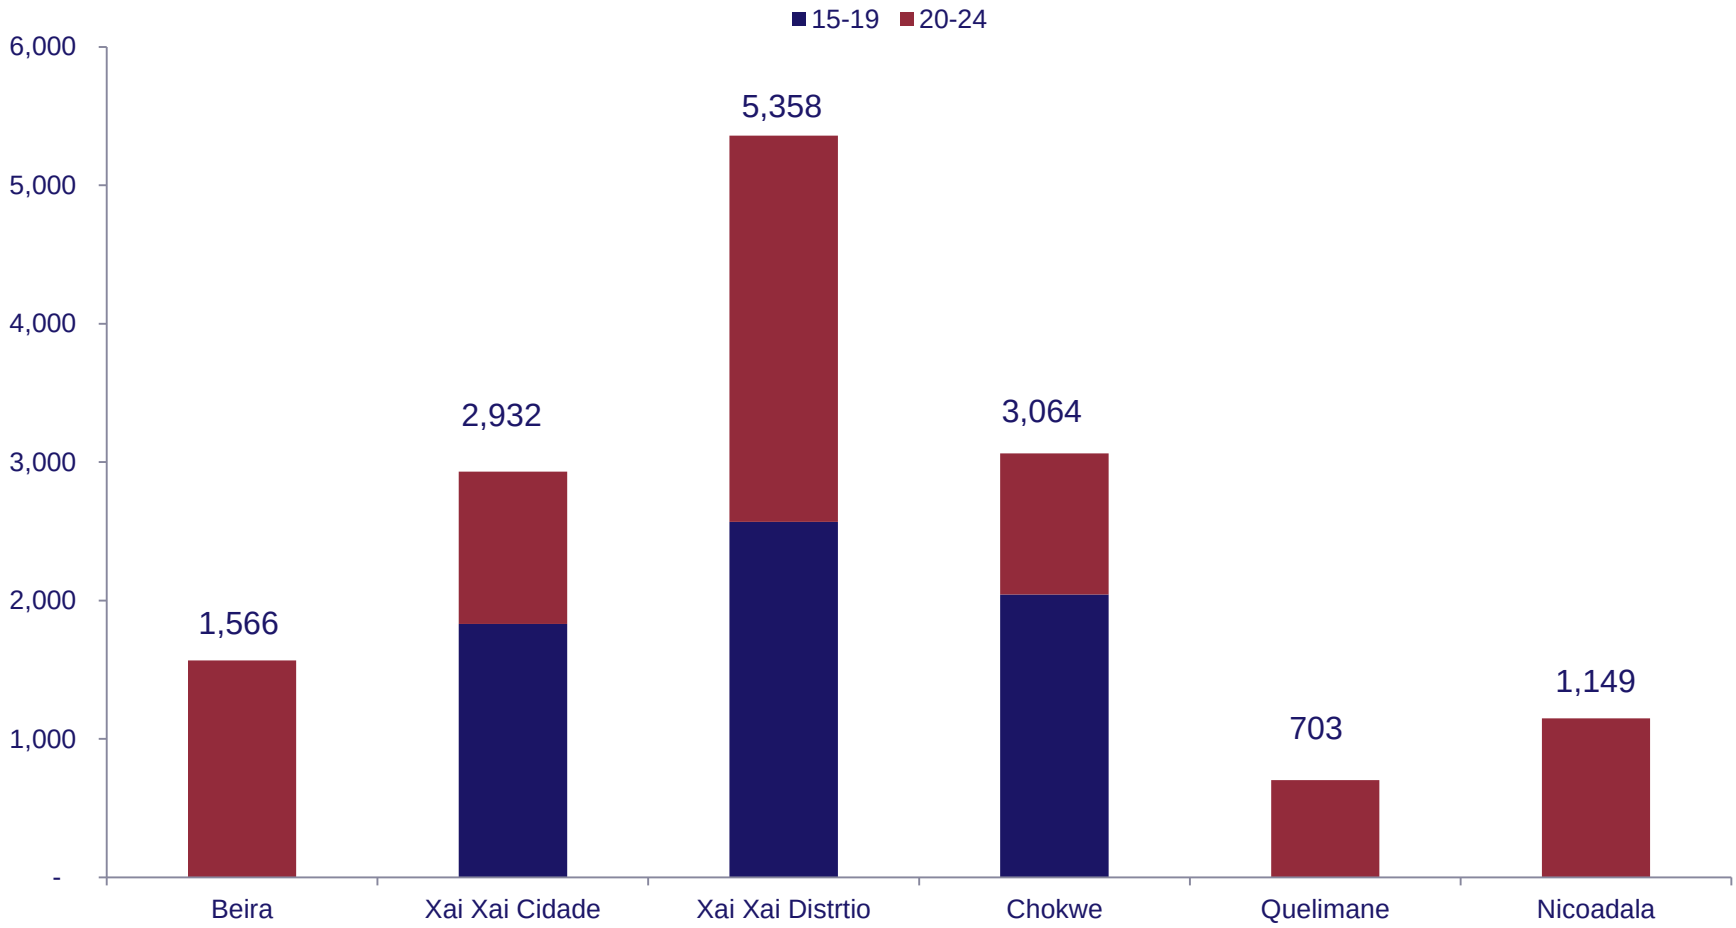
Number of AGYW receiving contraceptive method mix



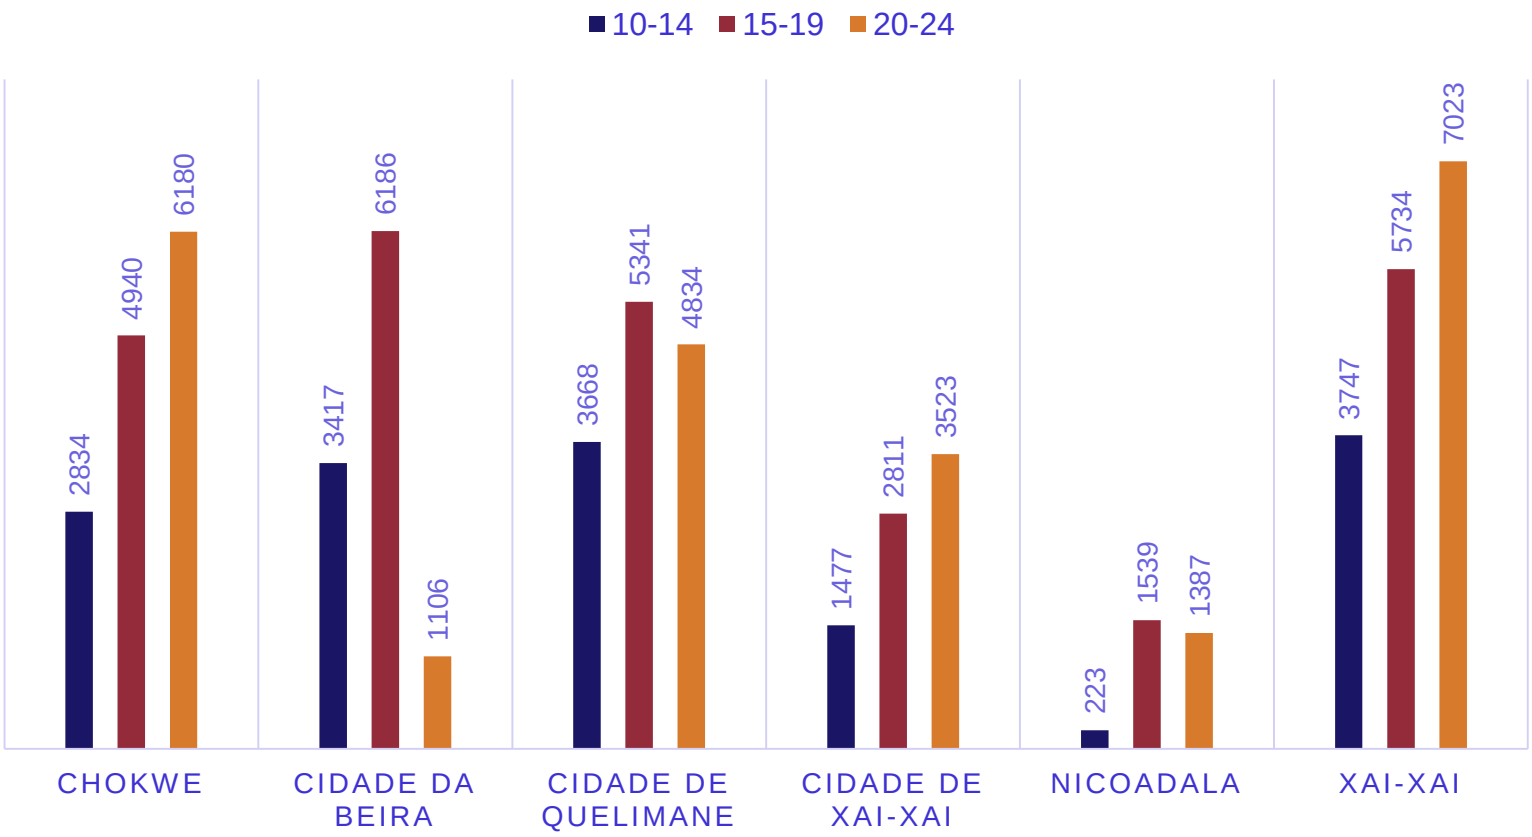
39,246 AGYW Participated in Girls Clubs in FY18 Q2



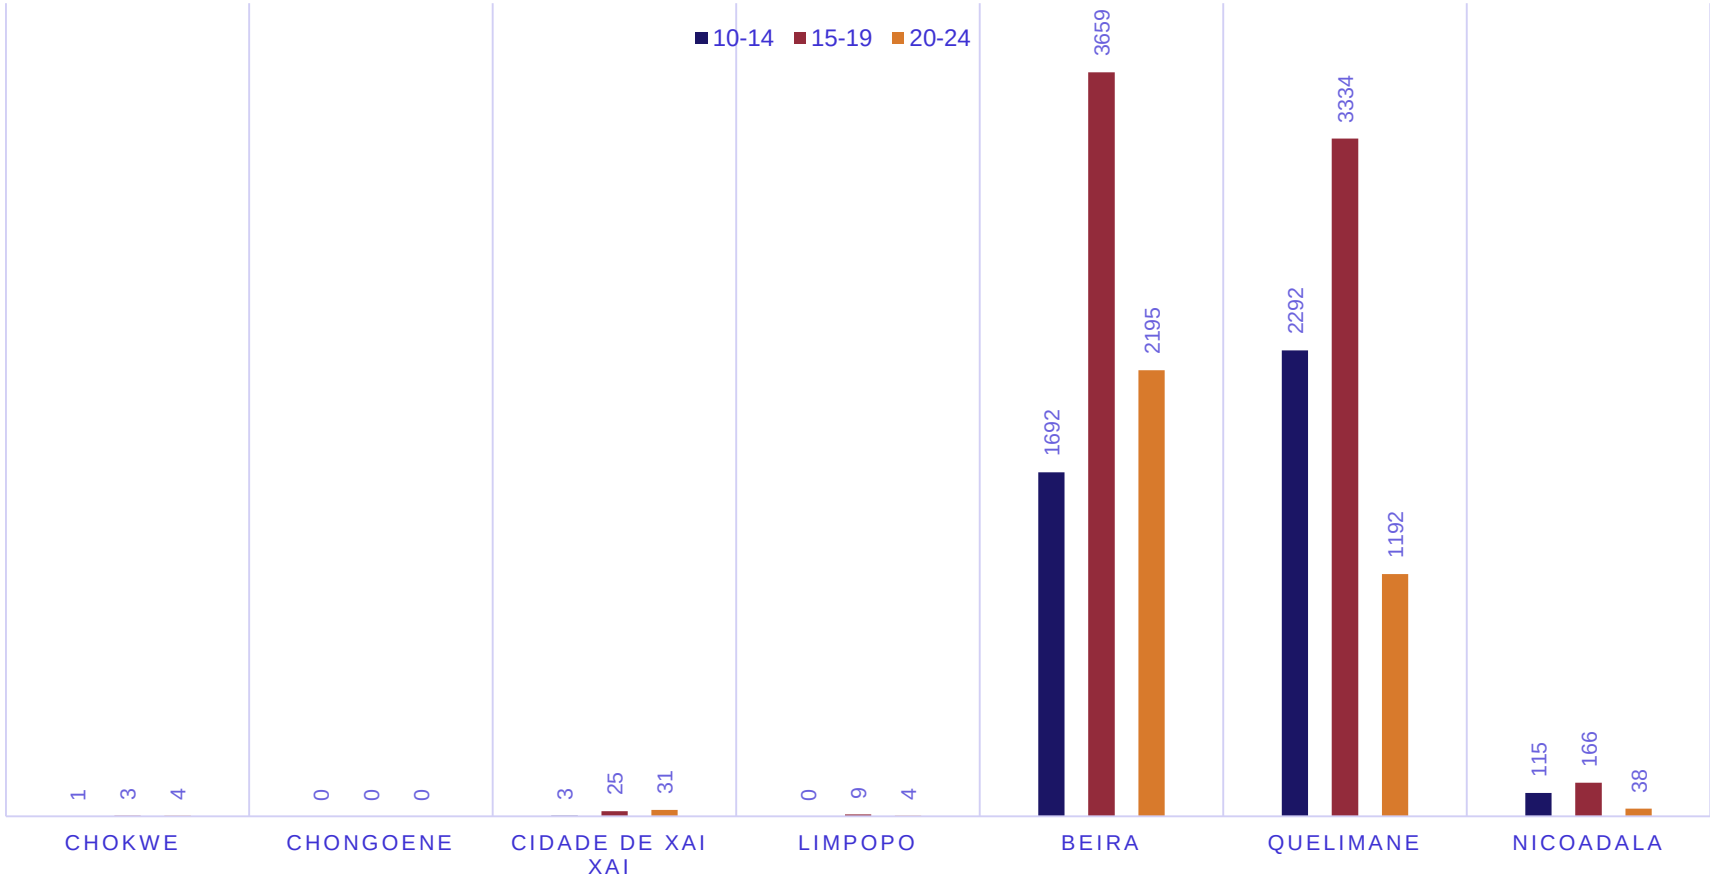
14,773 Active VSLA+ Participants FY18 Q2



AGYW participating in out of school safe spaces in DREAMS districts



Total number of beneficiaries included in the layering tool



Prevention for 9-14 year olds

- Programming must be sensitive to sexual violence and other factors shaping adolescent sexual behaviors (i.e. initiation rites, forced sex, transactional sex for survival), especially among girls

- Choice or perceived choice about sexual activity is often nonexistent for AGYW
- These programs must not blame youth or make them feel responsible or ashamed for factors outside of their control, while at the same time providing them with accurate information
    - benefits of delaying sexual debut when they have the ability to do so
    - employing comprehensive safer sex practices when they choose to engage in sexual activity in the future

Discussao:
O futuro dos espacos seguros

- Inclusao dos modulos de prevencao de violencia sexual e prevencao de HIV evitando o risco sexual para os adolescents e jovens
- Graduacao das adolescentes e jovens depois da completar o curriculo de sessoes
- Que modulos adicionais podem ser incluidos

Discussao:
SAAJ no distritos DREAMS

SAAJ especifico

- Espaço físico próprio com provedor qualificado
- Todas as componentes de SAAJ
  - Saúde sexual reprodutiva
  - Planeamento familiar
  - Testagem para HIV
  - GBV prevenção e cuidado
  - Paragem único para TARV
  - Alguns SAAJ tem consulta da CPN
  - Pode incluir atendimento em horas extras

SAAJ Alternativo

- Todas as componentes de SAAJ mais sem o local especifico.

SAAJ integrado

Atendimento en diversas portas de entrada por pessoas treinadas no pacote SAAJ

Cantinho de saúde escolar

- Saúde sexual e reprodutiva
- Pacote mínimo de planeamento familial
- Referenciamento ao CS mais próximo para testagem de HIV e ITS
- Piloto de testagem de HIV na Universidade de Quelimane

Obrigada
