- Sight fuel level gauge
- Pump shall produce minimum 20 GPM, have analog meter. Pump shall be 12 V DC.
- weatherproof enclosure for tools, batteries, etc.
- 50’ hose reel rated for diesel fuel
- 50’ Static discharge Reel
- Dual reading analog flow meter showing subtotal and total liters pumped
- Universal Spill Kit with oil absorbing rags, spill containment rope, Rubber gloves, and disposable bag.
- Fire Extinguisher, with minimum UL rating of 4A:40B:C
- Truck and tanks shall be properly marked in accordance with local and international regulations, including reflectors, lights, and signs.
- Permanently affixed metal plate with complete vehicle and tank information:
  1. Vehicle Manufacturer
  2. Serial Number
  3. Specification identification
  4. Date of manufacture
  5. Original Test Date
  6. Certificate Date
  7. Design Pressure
  8. Test Pressure
  9. Head Material
  10. Shell material
  11. Weld material
  12. Lining material
  13. Nominal tank capacity by compartment
  14. Maximum product load
  15. Loading limits
  16. Unloading limits
2. **Water Truck Specifications**

- 5,000L
- Wheelbase no more than 4000mm

Truck shall be Toyota Hino 300 or equivalent
- Due to previous reliability issues Tata trucks are not acceptable.
- 2 door cab
- Seatbelt indicator light and buzzer
- Passenger and driver airbags
- Anti-lock braking system
- Air conditioning

- Offset baffles to prevent movement
